

## OBSERVE AMERICA'S PARTNERSHIP IN WAR

### British and Americans In England Celebrate Event With Religious Service

## GREAT CROWD ATTENDS

### Stars and Stripes Float from Highest Tower of Parliament Buildings at Westminster

## SERVICE UNPRECEDENTED

LONDON, April 20.—The British people and Americans in this country celebrated America's partnership in the world war by a religious service today in St. Paul's cathedral, attended by the officials heads of the nation and a great congregation.

**Great Display of Flags.**  
There was a great display of American flags in London and all other English towns and a popular demonstration by the crowds. The Stars and Stripes floated from the highest tower of the parliament buildings at Westminster—the first time a foreign flag was ever displayed on the eminence—and flew above all government buildings in the British capital.

The service in the historic cathedral, where the most momentous occasions of national rejoicing and mourning have been solemnized, was unprecedented in being the commemoration of an act and decision of another nation. Overhead in the dim arches hung the dust weighted and battle-torn flags of famous British regiments, some of which had been carried in the American war of the revolution, while among the tombs and memorials of famous soldiers ranged about the walls were the names of those who fought against the colonies in that war.

**Cathedral Filled.**  
The cathedral seats nearly 4,000 people and was filled to its furthest recesses. All seats were occupied when King George and Queen Mary entered, followed by the mayors and aldermen of the twenty-six boroughs of London, wearing their scarlet robes of office.

The American embassy and consular staff occupied front seats with representatives of the pilgrims, the American Society, the American Luncheon Club, and the American Chamber of Commerce. In the diplomatic section were officers in the uniforms of France, Russia, Italy, Belgium, Serbia, Montenegro, Rumania and Japan.

Thruout the cathedral the army khaki and the navy blue were conspicuous. In the reserved seats there were a large number of wounded officers and soldiers, including many Canadians and several Americans serving with the dominion forces. Chancellor of the exchequer Bonar Law represented the cabinet in the absence of Premier Lloyd George.

**Reverie King and Queen.**  
The king and queen and Princess Mary were received at the west entrance by the Lord Mayor and Sheriff, the Archbishop of Canterbury, the Dean and Chaplain, of St. Paul's and United States Ambassador Page.

The congregation rose while their majesties walked down the center aisle and remained standing until the royal party was seated. Then the hymn, "Oh God, Our Help in Ages Past, Our Strength Thru Years to Come," was sung in a deep and mighty chorus with a heavy roll of drums from the band of the Welsh Guards. The service which followed consisted of the Lord's Prayer, Psalms XLVI and LII, lessons from Isaiah LXI, the apostles' creed, a prayer, the Battle Hymn of the Republic, a sermon by Bishop Brent, the hymn, "Thru the Night of Doubt and Sorrow," Benediction by the Archbishop of Canterbury, the singing of "The Star Spangled Banner," and "God Save the King."

**Clergy Conducts Service.**  
The clergy of St. Paul's conducted the service, assisted by the Archbishop of Canterbury and the bishop of London. The text from which Bishop Brent spoke was chosen from MacCabe's Second Chapter, Thirtieth Verse: "Having gone apart from the Elders, he resolved that they should go forth and try the matter in fight, by the help of God. And committing the decision to the Lord of the world and exhorting them that were with him to contend manfully, even unto death, for the laws, the temple, the country and the commonwealth, he pitched his camp—having given out to his men the watchword 'Victory is God's.'"

It is impossible for all the congregations to hear the words of a preacher in St. Paul's, but the prayers and psalms were read by the whole assemblage and the hymns, sung by thousands of voices reinforced by the choir, the great organ, trumpets and drums, were deeply moving. The ritual was worthy of a momentous event in history and the temple of a nation.

The royal party came from Windsor.

## SENATE TAKES UP WAR ARMY MEASURE TODAY

### First Real Fight Over War Program Will Begin

Seven Members of Military Committee Favor Call for Volunteers Instead of Proposal to Raise War Army by Selective Draft

Washington, April 20.—The first real fight over the administration war program will begin tomorrow when the senate takes up the army bill drawn by the general staff and approved by President Wilson. The bill goes to the senate with seven of the seventeen members of the military committee in favor of a call for volunteers instead of the proposal of the bill to raise the war army by a selective draft.

There is certain to be several days of debate. No effort is expected on the part of the draft opponents to delay a vote but many senators who favor the bill want to discuss it before they vote. Friends of the bill were confident tonight it would pass by a good majority. Senator Chamberlain, chairman of the committee said it would pass practically as reported.

Sensor Chamberlain expects to keep the bill before the senate until a vote is reached, but no plan is now contemplated to hold any unusually long sessions or to attempt to sit continuously. The bill should reach the voting stage by the end of next week.

The house military committee will meet tomorrow and go thru the formality of approving the measure which a majority has substituted for the general staff measure which provides that the volunteer system shall be given a trial before draft is resorted to. The minority will vote for the staff bill and reports by each side will be filed with the house Monday.

**D. A. R. PLAN TO RENDER PRACTICAL SERVICE**

WASHINGTON, April 20.—Plans which will enable members of the Daughters of the American Revolution to co-operate with the Council of National Defense during the war with Germany and render practical service to the nation will be announced at the closing session tomorrow of the twenty-sixth annual congress now in session.

A conference between the advisory committee of the council and a committee representing the daughters has been held at which recommendations were made which will be laid before the congress.

A patriotic demonstration followed when Mrs. Matthew T. Scott, a former president general offered her home at Bloomington, Ill., to the government for hospital purposes. Many other delegates made similar offers.

The night session was devoted to patriotic songs and addresses.

## CALLS UP SURGEONS AND PHYSICIANS

LONDON, April 20.—The war cabinet today decided that every physician and surgeon and every man with medical training of military age must be called up for service immediately.

In reference to the calling up of the physicians and surgeons the following explanation is given: "The enemy, in total disregard of the accepted tenets of civilized warfare, has deliberately instituted a submarine campaign against hospitals and it has, therefore, become essential that a large number of hospitals should be established overseas in the various theaters of war for the care of sick and wounded. In order to allow this to be done with great rapidity, it is essential to insure the services of every doctor that can possibly be spared from the United Kingdom."

## FIFTY STRIKE FOR RAISE IN WAGES

### Motor Drivers In Peabody Coal Company Mines Out—2,000 Miners Out of Work

Springfield, Ill., April 20.—Fifty motor drivers in mines of the Peabody Coal company at Nokomis, Wt. and Kincaid, who are on strike for higher wages, throwing 2,000 miners out of work, will be expelled from the union unless they return to work, Frank Farrington, president of the United Mine Workers of Illinois, stated tonight.

The strikers are demanding an eight hour day and the same pay they now receive for ten hours work. The men now receive \$3.25 a day and are asking an increase of a dollar if forced to work ten hours.

Under the New York agreement the men would get an increase of sixty cents a day, Mr. Farrington said.

## WILL ASK ASSESSMENT INCREASE

Keokuk, Ia., April 20.—Attorney General H. M. Hayner, is expected here next Friday to ask the Board of Review to raise the assessment on property of the Mississippi River Power company, placed this year at \$500,000. This date to hear protests was set at a meeting of Assistant Attorney General Robbins and power company and business men with the city council today.

## PLAN GOVERNMENT CONTROL OF PRICES

### Houston Would Have Defense Council Fix Prices for Food

## CONGRESS HAS PROGRAM

### Asks That Agriculture Department Take Direct Supervision of Food Production

## WOULD MAKE SURVEY

WASHINGTON, April 20.—The government's program for food control during the war was put before Congress today by Secretary Houston in a communication to the Senate asking for the department of agriculture to take direct supervision of food production and distribution in the United States and requesting a \$25,000,000 appropriation for putting the plan into operation.

Authority was asked for the Council of National Defense in an emergency to buy and sell foodstuffs and to fix maximum and minimum prices.

**Would Make Complete Survey.**  
As outlined to the senate, the government's plan is first to make a complete survey of the country's food supply to determine its ownership and distribution, then if necessary to license and control the operations of all concerns engaged in the manufacture of food or feeds, agricultural implements and all materials required for agricultural purposes. Authority is sought for the agricultural department to take over and operate the concerns if it appears that course is demanded by the public interest.

Giving the government power to deal directly in foodstuffs probably would make its application unnecessary, Secretary Houston declared, as its very existence would tend to keep conditions normal. He proposed that the government should have full discretion saying it might be wise if an emergency arose to fix prices on a single commodity.

Market grades and classes for farm products Secretary Houston said is one of the chief needs of the country to insure proper conditions in producing and marketing farm products.

Authority was also asked to require of transportation authorities, preference for the movement of farm machinery, seeds, fertilizers and materials that enter into the processes of food production.

Enlargement of the market news service of the department was recommended as a means of insuring equitable distribution. The department wishes to allow the market service division to assist in obtaining re-routing of foodstuffs to relieve congestion on transportation lines.

In its plan for an investigation of the present food supply the agricultural department has arranged for the help of the federal trade commission.

The commission already is laying plans for the inquiry and today called into conference more than a dozen senators and representatives for suggestions. The concert of opinion, it was said afterward, was that the commission should interpret the act creating it in the most liberal fashion and should get down to basic facts concerning the handling of food resources.

Some officials believe the trade commission has enough power to make unnecessary the use of extreme legislation in regulating the control of food, although additional powers should be given for an emergency.

The senators and representatives with the commission today were chosen from among the large number that have introduced food legislation in congress and others who are particularly interested in the food situation.

**Must First Lay a Facts.**  
Officials of all departments realize that the facts of the situation existing must be learned before remedies can be planned. Now no one knows how much food there is in the country and how it is distributed.

Suggestions that the government is contemplating measures for national prohibition during the war as a means of increasing the food supply are met with the statement by officials that no early action in that direction is likely as it is not considered necessary at this time. Secretary Houston alluded to it today in his letter to the senate by a reference to European action in restricting the manufacture of alcoholic liquors. He made no recommendations however, merely pointing out that the European governments have saved considerable food that way.

Estimates, he said, put the amount of food made into liquor in the United States at about \$145,000,000 annually.

Mr. Houston warned today against agricultural experiments in new areas and tests of new crops. The increase of food, he said, must come largely thru increased farm efficiency and on farms already in operation.

## WAR NEWS SUMMARIZED

Steady Progress is being made by the troops of General Nivelle in recovering the grounds in the regions of Soissons and Rheims. In a new offensive the French also have entered the German second line in the Argonne Forest. German counter-attacks on the Vaucelers plateau south of Laon have been repulsed.

Since the beginning of the French offensive last Monday, more than 19,000 Germans have been taken prisoner. Guns captured in the past five days exceed one hundred not including machine guns. North east of Soissons, the French on Friday occupied the village of Sancy and continued their advance toward the Chemin Des Dames, a road paralleling the Aisne. On the Vaucelers Plateau in the region of Ailles and Hurlébis, the Germans are reported by Paris to have launched an attack, "with large effectives."

The effort was frustrated by artillery and machine gun fire. The artillery fighting in this region is reported to be continuing actively.

East of Rheims in the region of Moronvilliers the French have taken several important points of support. The German resistance here is reported to have been stubborn. In the Argonne Forest French detachments penetrated the German positions as far as the second trenches. A trench number of German dead were found by the French. The abandonment of the bank of the river Aisne between Conde and Soupir is admitted by Berlin, which declares that the action completed the occupation of the Siegfried positions. Berlin says the French "follow hesitatingly."

Berlin says a Second French attempt to break thru in the Champagne was frustrated and the latest statement adds that new engagements have developed between Prose and the Stuppes Valley, which district includes the region of Moronvilliers.

There has been little activity on the Northern front in France, London reports no further progress for the British forces anywhere. From the eastern front there are no reports no further progress for the British forces anywhere. From the eastern front there are no reports of fighting.

**Both in Palestine and in Mesopotamia north of Bagdad, British forces have added to their recent successes. North of Wadi Chuzze in Palestine the British have occupied Turkish positions along a front of six and a half miles.**

**General Maud continues his advance on Sarra, 10 miles north of Bagdad on the Tigris and his troops have forced a passage of the river Shatt-el-Adherim, 12 miles southeast of Samarra. More than 1200 prisoners were taken by the British in this operation.**

## BOARD TO RULE ON STATE MEDICAL SCHOOLS

### Meeting To Be Held in Chicago Today To Make Ruling To Permit School To Graduate Classes Next January

Springfield, Ill., April 20.—At a meeting in Chicago tomorrow, the state board of health will make a ruling which will permit state medical schools to abolish the summer vacation this year and graduate classes next January it was announced here today by Dr. C. St. Clair Drake, secretary of the board.

The action will be taken in order to make available more medical men for service in the medical corps of the army and navy.

Under the proposed plan, men who will finish their junior year in June will be enabled to continue their senior studies through the summer.

The board has already ruled that Juniors or seniors who wish to enter military service may do so without prejudice, and may receive their certificates from the state for time in the army in lieu of time in the class room.

State medical schools will graduate about 600 medical men between now and January, Dr. Drake said.

## SOCIALISTS DISCUSS ARGENTINE'S POLICY

BUENOS AIRES, April 20.—At a meeting of Socialists here today a rupture occurred over the question of Argentine's policy towards Germany.

After a stormy meeting the executive committee by a two-thirds vote approved a declaration to be submitted to the forthcoming national Socialist convention setting forth that Germany's submarine methods violate international law and the freedom of the seas. It favors efforts to reach a settlement by diplomatic means, but recommends the arming of ships.

## WILL RUSH WORK ON APPROPRIATION BILLS

SPRINGFIELD, Ill., April 20.—Heads of the Illinois house and senate appropriations committee arranged today before adjournment of the assembly unit Monday for conferences with heads of the various departments of state government in hope of rushing work on appropriation bills. War time economy is to be practiced as much as possible in the drafting of appropriations, it is said. More than fifty million dollars will be necessary to run the state for the next two years according to preliminary estimates.

## ELECTED PRESIDENT OF GOOD ROADS ASSOCIATION

Birmingham, Ala., April 20.—John Bankhead, United States senator from Alabama today was elected president of the United States good roads association in convention here.

## WILL CALL FOR WAR FINANCES

### Government Will Make First Call When Financial Bill Becomes a Law

## ANNOUNCES PLANS

### Government Will Utilize Federal Reserve System in Making Call for Finances

## ANTICIPATE REQUEST

WASHINGTON, April 20.—First call to the country for war finances will be made, Secretary McAdoo, announced today, as soon as the \$2,000,000,000 financial bill becomes a law, probably within three or four days.

**Will Make Call on Banks.**  
The call will be for subscriptions to a part of the \$2,000,000,000 issue of treasury certificates of indebtedness, designed to meet financial needs, pending the issuance of the \$5,000,000,000 in bonds and the receipts by the government of its war taxes, and will be made upon the banks of the country and not upon individuals. The first portion of the \$5,000,000,000 bond issue probably will be offered to the public within sixty days.

In making its first call for finances the government will utilize the smooth-running machinery of the federal reserve system. Anticipating the formal request the federal reserve board today instructed the twelve reserve banks to enlist the co-operation of all banks throughout the country, state and national as well as trust companies, in the program of preparing the field. This means that the banks of the country will be asked to subscribe, as liberally as they may and as the money is needed, to the issue of certificates of indebtedness which will be put out in advance of the big bond issue.

**First Offer May Be \$200,000,000.**  
How many millions of the these certificates will be issued has not yet been determined. The first offer, Secretary McAdoo announced, probably will be \$200,000,000. Other offers by the hundreds of millions probably will follow as the funds are needed. The interest rate may pay up to 3 1/2 per cent. Soundings of sentiment has revealed a willingness of banks to take a substantial offering at as low as rate as 2 1/2 per cent.

Certificates purchased by the banks may be used in lieu of cash. Mr. McAdoo again announced in paying for the bonds when issued. Authority for receiving subscriptions to the certificates has not been given as yet as the bill has not been finally disposed of, amendments thereto being in conference between the houses of congress.

**To Return Money to Market.**  
Monies received for the certificates will be promptly returned to the market under the secretary's program, so that there may be no derangement of the money market. The proceeds will be paid out by the government in business transactions, the money will again be deposited in the banks and the banks will be in the position of having both the money and the certificates, with which to meet withdrawals by depositors subscribing to the bond issue.

The fullest co-operation of the federal reserve board will be given the treasury department in disposing of the certificates. Letters so instructing the federal reserve banks were sent out today by the board after Mr. McAdoo had announced his program.

## MANY PAY INCOME TAX IN ADVANCE

SPRINGFIELD, Ill., April 20.—In response to a plea by the federal government, fifty percent of those persons subject to income tax in the eighth internal revenue district of Illinois have paid their taxes two months in advance of the date the taxes were due, according to internal Revenue Collector John L. Pickering today.

The plea of the government was that the nation is now in need of every bit of revenue possible to collect. The eighth district will produce about \$1,000,000 this year, it is said. The sum of \$118,000 was collected this week, Mr. Pickering stated.

## REPRESENTATIVES OF SHIPPERS GIVE VIEWS

WASHINGTON, April 20.—Representatives of shippers from all over the country today gave the interstate commerce commission their views regarding the commission's tentative order permitting the railroads to file freight rate increases of 15 per cent, effective June 1. Many speakers favored an advance of some sort, provided the railroads could prove it necessary; some advocated an immediate increase in rates on the ground that it would be cheaper to pay the increase than to suffer losses later thru lack of transportation and others opposed any increase, saying there was no need for it.

## THOUSANDS OF GERMANS UNDER SURVEILLANCE

### Department of Justice Officials Make Announcement

Investigators Watch Suspects Because of Their Activities in Behalf of Germany Before U. S. Entered War or Because of Their Pro-German Sympathies.

Washington, April 20.—Approximately 3,000 German residents of the United States are under close surveillance, department of justice officials announced today because of their activities in behalf of the German government before America's entry into the war or because of their pro-German sympathies.

**Bureau Greatly Enlarged.**  
The department's field force of investigators, now grown to formidable proportions, is keeping so close a watch upon the small army of suspects that it would be possible, it is authoritatively stated to arrest virtually every man under suspicion within 24 hours. The suspects are located in every state of the union. To meet the demands of the increasing watch upon these individuals the department's bureau of investigation has been greatly enlarged since the beginning of hostilities with Germany and recruits are added daily to the staff. In addition to the 500,000 civilian employees on the government's payroll in all departments, all sheriffs and their deputies throughout the country, Attorney General Gregory said tonight are co-operating with the department to the extent of reporting information which may aid in detecting and apprehending persons working in this country against the interest of the United States. Patriotic organizations and many other civilian associations also have offered their aid. To meet apparent confusion in the public mind as to which department of government is charged with the duty of enforcing the president's proclamation relating to alien enemies resident in the United States, it was stated at the department of justice that the president had delegated to that department the full enforcement of the proclamation.

## WILL WELCOME COMMUNICATIONS.

Patriotic citizens desiring to place at the government's disposal, information which they believe may aid in ferreting out the activities of German agents should communicate with the department of justice. Such communications it is explained, will be treated as confidential and will be welcomed. Thus far, it was said, the strict surveillance maintained over persons known to be pro-German sympathy, has revealed a tendency to observe the law more generally than the department had anticipated.

## DAVE MONTGOMERY, COMEDIAN, DEAD

CHICAGO, April 20.—David Montgomery, the comedian, who has been ill in a Chicago hospital for more than a month, died shortly after 4 o'clock this afternoon.

Montgomery was of Scotch descent and was about forty years old. He began his career as an entertainer with a circus. From clown and side-show dancer he became a minstrel in the palmy days of that form of entertainment. He was with the Hayley Troupe of Minstrel Minstrel for some time. In 1895 he formed the partnership with Fred Stone, the team of Montgomery and Stone soon becoming famous among theatergoers.

After "The Wizard of Oz" came the "Red Mill" which had a three year run then came the "Old Town" and finally "Chin Chin." In the latter play Montgomery last appeared at St. Paul leaving the company to come to Chicago for medical examination which resulted in his going to the hospital March 20. After an operation he rallied for a time, but suffered a relapse since which he has been unconscious for days at a time.

The body of Montgomery will be taken to New York city tomorrow for interment in Woodlawn Cemetery in that city.

## OPPOSE SECRETARY M'ADOO'S SUGGESTIONS

WASHINGTON, April 20.—Opposition to many of Secretary McAdoo's suggestions as to possible new sources of revenue developed today when the ways and means committee met for the first time to consider raising money by taxation to meet war expenditures. No final votes were taken on any proposals, but the preliminary discussion showed that no little time will be required to reconcile the widely divergent views of various members.

No partisan differences arose, however, and this strengthened Democratic Leader Kitchin's belief that a bill will be agreed upon within two weeks. Every effort will be made Mr. Kitchin said tonight, to keep politics out of the discussions.

## MAY TRY TO ESCAPE

Amsterdam April 20.—via London.—More than five hundred German Fusiliers sailors and landsturmiers on Monday evening tried to cross the Dutch-Belgian frontier near Cadzand, Holland, says the Handelsblad but the attempted desertion was frustrated by Uhlans. The deserters were fired on with machine guns and 38 were wounded. The frontier guards the newspaper adds, have since been doubled.

## TRANSMIT ORDER TO ILLINOIS GUARD

Springfield, Ill., April 20.—Guardsmen whose absence from home would not deprive their families of support will not be discharged from military service according to an order transmitted today to Illinois commanders by Adjutant General St. Paul.

The order was transmitted to Helena, Dickson on instructions from the war department.

## SENATE FAVORS PRESS CENSORSHIP

### Retain Censorship Clause of Administration Espionage Bill

## LAY MEASURE ASIDE

### Senate Will Begin Consideration of the War Army Bill Today

## HOUSE COMPLETES DRAFT

WASHINGTON, April 20.—The senate recorded itself today in favor of press censorship during the war. A censorship clause of the administration espionage bill after decided modification, was retained in the bill by a vote of 43 to 33, in which partisan division was regarded.

The vote came after three days of sharp debate and was regarded as definitely forecasting final retention of the censorship provisions.

## To Take Up War Army Bill.

Later the bill, still far from completed, was laid aside indefinitely to permit consideration beginning tomorrow of the war army measure. The house judiciary committee has completed its draft of the espionage bill, also with a censorship clause, and will report it Monday. The provision as finally accepted by the senate follows:

"Whoever, in time of war, in violation of reasonable regulations to be prescribed by the president, which he is hereby authorized to make and promulgate, shall publish any information with respect to the movement, numbers, description, condition or disposition of any of the armed forces, ships, aircraft or war materials of the United States or with respect to the plans or conduct of any naval or military operations, or with respect to any works or measures undertaken for or connected with, or intended for the fortification or defense of any place or any other information relating to the public defense calculated to be useful to the enemy, shall be punished by a fine or not more than \$10,000 or by imprisonment for not more than ten years or by both, such fine and imprisonment; provided that nothing in this section shall be construed to limit or restrict, nor shall any regulation herein provided for limit or restrict any discussion, comment or criticism of the acts or policies of the government, or its representatives or the publication of the same."

## Will Confer Wide Powers.

Advocates of the provision admitted that it would confer wide powers upon the president to restrict publication of military matter both in the press or by individuals in speeches or otherwise. Its foes declared it was unconstitutional and the most drastic curb upon freedom of speech and the press ever proposed during the nation's entire history.

Before the final vote the original committee draft, much more sweeping and drastic, was greatly modified. The committee proposed to prohibit not only the publication of military information except under presidential regulations, but also its connection, recording or attempts to elicit it. A substitute for the whole clause, submitted by Senator Cummins of Iowa, was rejected 40 to 34. Senator Cummins proposed that the president be authorized to prescribe regulations which would not abridge freedom of speech or the press and prohibit publication of actual military operations, not including condition of the armed forces and other matters.

## WIRELESS WARNING RECEIVED

Boston, April 20.—A British Steamship arriving here from Mediterranean ports with passengers today, reported the receipt on Tuesday night of a wireless warning from a British naval vessel that a German submarine was in the middle Atlantic. No evidence of the presence of a submarine was encountered, however, officers reported.

## MACHINERY DISABLED

Montevideo, April 20.—The machinery of the German steamers interned here have been disabled by their crews.

The government has sent to the Brazilian frontier owing to trouble in Rio Grande de Sur.

## DRYS AT HAVANA PLAN ELECTION CONTEST.

The vote on the wet and dry question in Havana last Thursday was so close that the dry forces are planning for a contest. The town went wet by forty one votes and the dry forces maintain that they have evidence to prove that illegal votes were cast. A Chicago attorney for the anti-saloon league will help the drys in this contest.

## ELKS HAVE PRACTICAL CHARITY PLAN.

Elks often take the lead in work for charity and a lodge in Franklin Pa., imbued with the spirit of the times, is preparing to farm a ten or twelve acre tract and to give the crops raised to needy persons. The intention of the Elks is to do the work themselves and utilize every foot of ground. One member of the order who is enthusiastic in the movement, has offered to furnish a plot of ground free of charge.

Heads of Railroad Owned and Other Coastwise Steamship Lines Asked to Come to Washington for Conference.

Washington, April 20.—Heads of railroad owned and other coastwise steamship lines have been asked to come to Washington Monday for a conference with the council of national defense on a proposal to divert a large number of vessels from the coastwise trade to the transatlantic service. The conference first set for today, was postponed until next week to permit all the transportation men to attend. In furtherance of its policy of putting every available ship to transporting supplies to the allies the government has asked the railroads to rearrange their schedules and facilities as to permit the earliest possible release of their vessels.

Increasing activity of German submarines has spurred officials in speeding up government machinery to put every ton of shipping possible on the Atlantic. Work on damaged German and Austrian ships in American ports is being hurried to the utmost, and the government is taking the country for labor to build its great fleet of wooden ships. The question of increasing the construction of steel merchant ships in addition to the wooden fleet was taken up today by the cabinet. Secretary Daniels said he had not decided whether to postpone naval construction so that merchant vessels can be built instead, but that it is under consideration.

## STATES BLOCKADE

## WILL NOT BE BROKEN

AMSTERDAM, April 20.—via London.—"Will the American fleet enable our enemies to break our submarine blockade? The answer is, most certainly not," says the Koelische Volks Zeitung which adduces a curious and cumulative argument which it evidently considers final that the "submarine" cure has not been invented. "Therefore, it cannot be invented because there is none."

"It will be painful for us," the newspaper continues, "to sink good German ships, but we cannot be sentimental in this respect and will dispose of America's seizures in fifteen to twenty days. The loss of German capital in that connection will hardly equal three days of our war expenditure."

## KILL THREE HUNDRED

## VILLISTAS IN FIGHT

JUAREZ, Mexico, April 20.—One hundred Villa followers were hanged, 200 others killed and wounded, and a quantity of ammunition and horses captured yesterday when fighting between the Villa forces and the command of General Francisco Murguía was resumed at dawn in a rugged canyon in the Babicora district of Western Chihuahua, according to an unofficial report received here tonight from General Murguía's base at Casas Grandes.

## SENATE PASSES

## PENSION BILLS

SPRINGFIELD, April 20.—The Chicago firemen and police pension bills, introduced by Representative Boyer, were passed by the house today. Bills similar in most respects will go to conference for final agreement. The Chicago municipal employees pension bill also was passed.

So much opposition developed to the Donohue bill to make firemen's pensions compulsory in all cities above 5,000 inhabitants, that its proponents secured postponement of consideration until next week.

WILSON WILL NAME  
COMMISSION TO RUSSIA

Elihu Root May Head Body to Confer With Members of New Provisional Government.

Washington, April 20.—President Wilson probably will name within a few days a group of distinguished Americans as a commission to be sent to Russia to confer with members of the new provisional government there on ways which the United States can assist to strengthen the Democratic administration and aid Russia in the war against Germany.

Elihu Root, former secretary of state, appeared tonight to be the probable selection for chairman of the commission, although officials said a final decision had not been reached.

The commission will be entirely non-partisan. The president desires to demonstrate by the character of the men he chooses, the deep interest he feels in the success of the Democratic movement in Russia. He has discussed the question twice with his cabinet and is understood to have about made up his mind on the names of the principal members of the commission. The president first wanted to have a member of his cabinet head the commission, and it is possible that he may yet decide on this step. In addition to the head of the commission who will act as the spokesman of the president, the commission will include commercial, railroad, financial and military experts.

## AIRPLANE WRECKED

## WITH 2 ARMY OFFICERS

WEST POINT, April 20.—An airplane containing two signal corps captains, Walter G. Kilner and Harold S. Martin who had safely flown here from Long Island to attend the United States military academy graduation exercises today, later crashed into a tree near the parade grounds and fell thirty feet. Neither officer was injured, but the machine was wrecked.

The accident was witnessed by Secretary of War Baker, Major General Hugh L. Scott, chief of staff, and a large commencement throng.

CALL FOR 'GERMAN FRIED'  
BRINGS MAN TO GRIEF

LIVINGSTON, Mont., April 20.—Insistence on "German fried" potatoes, brought Victor Cline, said to be from Dubuque, Ia., to grief here yesterday. Entering a cafe he informed a waiter of strong pro-Ally sentiments that he wanted "German fried potatoes, and be sure they are German." The waiter promptly gave him a severe beating, the police refusing to interfere.

## FARMERS CONFER ON

## CROPS IN QUINCY

QUINCY, Ill., April 20.—Representative farmers from fifteen counties of Missouri and Illinois within a radius of 50 miles of Quincy met this afternoon to confer upon increased crop production on the farms of the district. Communications endorsing the movement and meeting were received from Governor Lowden and Dean Eugene Davenport of the College of Agriculture of University of Illinois.

## QUENTIN ROOSEVELT

## ENLISTS IN SIGNAL CORPS

WASHINGTON, April 20.—Quentin Roosevelt, youngest son of Colonel Theodore Roosevelt, former president of the United States has enlisted in the signal officer's reserve corps. He received his papers at the war department today and will be sent immediately to the aviation school at Minota, L. I. During his course of instruction he will be rated as a private but when he has qualified he will receive an officer's commission and be attached to one of the aeroplane squadron stations.

## SEVERE WEATHER CAUSES

## LIVESTOCK LOSSES

WASHINGTON, April 20.—Severe weather is causing heavy losses among cattle and sheep in the northern Rocky Mountain region, according to the forestry service. The loss of sheep in Wyoming, Montana, Idaho, Utah and Nevada will be unusually heavy and may reach twenty percent, it was said today.

Heavy cattle losses are in prospect in Idaho, Montana and Wyoming, and stockmen fear that short grain and hay supplies will mean the death of many more animals before warm weather.

In the Pacific coast states and in the southwest the situation is said to be much better. National foresters have been ordered to open all preserves to livestock earlier than usual this year.

## ILLINOISAN AMONG WOUNDED.

Ottawa, Ill., April 20.—Among the Americans named in the Canadian casualty list issued here today is A. Devlin of West Frankfort, Ill., who is included in the list of wounded.

## HISTORY OF MEDICINE

The Morgan County Medical Society Will Be Fifty Years Old In May.

Anyone who has information about any of the early doctors of this county, or of any Medical Meetings or Societies prior to 1866, will confer a favor by sending it to Dr. Walter Frank, secretary of the Morgan County Medical Society, 200 Ayers Bank Building, and it will be edited for this column.

Why the morning session was abandoned and only one session beginning at 1:00 p. m. adopted with the January 1867 meeting does not appear in the minutes. Perhaps now that the by-laws were adopted and the fee bill established it was thought one session would afford sufficient time for purely scientific discussions. Perhaps it was not considered wise to have too large a dose of science at a time as we have already noticed that even the ever energetic Prince had twice pleaded lack of time to prepare the subject promised and the same had happened with one or two others. These facts were important elements no doubt in the change. Therefore according to the minutes the society convened at the Court House in monthly session at 1:00 p. m. January 10th, 1867. The minutes of the meeting are rather brief. Under "Reports of interesting cases and exhibition of instruments and apparatus" Dr. David Prince reported an interesting case of obstetrics although the minutes are silent on the peculiar points of interest. Other members may have reported cases but if so the minutes do not mention it. The attendance at the Meeting was small, due probably to proverbial Mid-winter weather and roads in Central Illinois. Perhaps the Doctor does not always stop and reflect how much of his present comfort in getting about the country he owes to the road grader and the road drag. The paper of the day was on "Puerperal Fever" by Dr. Prince but again the minutes are silent as to the discussion.

son for the service and drove to the cathedral in open carriages drawn by four horses without outriders but no military escorts.

The king returned to Buckingham Palace afterward, the crowds along the route cheering him heartily.

## Civil War Veterans March.

One of the most picturesque of the numerous processions to St. Paul's was a group of twenty-two veterans of the American Civil War, who marched from their humble headquarters near London Bridge carrying American flags and a banner inscribed "American Civil War Veterans; No for Ourselves but for Our Country."

The wrinkled faces and limping gait, combined with the military pride which distinguished the veterans, recalled to every American who saw them similar processions which feature Memorial Day and other holidays in the United States. Few of the British spectators understood exactly what the procession meant, but here and there an American walked from the sidewalk and hurriedly shook hands with each of the marchers. Some of the veterans had not seen their native land since the days of the great struggle.

## WILL HOLD MEETING TODAY.

Washington, April 20.—Representative men from many parts of the country arrived here tonight at the invitation of President Wilson to attend a meeting tomorrow morning to devise ways of raising money to finance the American Red Cross fund its work in the war. One of the results of the meeting will be the designation of a day in May on which the nation can concentrate its attention on the question.

## CLIPS FIVE SECONDS

## FROM RECORD.

Pittsburgh, Pa., April 20.—Five seconds were clipped off the world's record for 200 yard breast stroke swimming in the national championship meet in that event here tonight when Mike McDermott of the Illinois Athletic club made the distance in a 75 foot pool in 2:39 1/2.

## JUDGE WITHHOLDS DECISION

El Paso, Texas, April 20.—Franz Gottewald, held in the Fort Bliss stockade as an "alien enemy," admitted in his application for a writ of habeas corpus today, that he was employed by the Mexican de facto government and has been in the United States but three months. Government agents alleged that Gottewald was quartermaster general in the Carranza army of the north and that he had conspired with an American to ship munitions of war to Mexico. Judge Duval West in United States district court withheld decision in the hearing until tomorrow.

## PLAN TRAINING CAMP FOR

## HIGH SCHOOL VOLUNTEERS.

Culver, Ind., April 20.—Preparations are being made at the Culver Military Academy for a high school volunteers training camp to be held from April 30 thru May 12. It is expected 1,000 high school students from middle western cities will attend.

The camp will be under the supervision of Captain E. Z. Steever, U. S. A.

## WILL GIVE STUDENTS CREDIT.

Cedar Rapids, Iowa, April 20.—Boys over 16 years of age who leave school now to enter the employment of farmers or market gardeners or girls the same age who enter offices to take the place of men who have enlisted will be given full school credit for the rest of the school year, if at the time they give up their school work they are making passing grades.

## LOWDEN NAMES DELEGATES.

Springfield, Ill., April 20.—Governor Lowden today named 31 delegates to the forty-fourth annual convention of the National conference of Charities and Corrections, to be held June 6 to 13 at Pittsburgh, Pa. Among those named were: Elizabeth Jack of Peoria and Mrs. Julius Regier of Danville.

## ALLOWED TIME TO

## ANSWER PETITION

Springfield, Ill., April 20.—After the "wet" in this city had supplemented their two petitions asking the county court to declare the "dry" election here April 3 null and void Judge Weaver today allowed the "drys" until Monday morning to answer the new petition.

BLANCETT CONFESSES  
TO KILLING ARMOUR

Says Killing Was Accidental and Took Place While He Was Intoxicated.

Santa Fe, N. M., April 20.—Elbert Lancett on trial for the murder of Clyde D. Armour of Sioux City, Iowa, tonight took the stand and admitted killing Armour with a shotgun on the afternoon of October 23.

The killing, Blancett said, was accidental and took place while he was intoxicated. It occurred, he said, in a woods twenty miles east of here while he was on the way from Denver, Colo., to Fresno, Calif., in an automobile with Armour.

Blancett testified that he and Armour left the car for a short hunt. Armour walked twenty five feet ahead of him, the accused man said and when he stumbled, the shotgun he was carrying was discharged and Armour received a portion of the charge in the back.

When he had ascertained Armour was dead Blancett said he started for Santa Fe to notify authorities but became frightened as the thought of possible consequences of the affair.

Being out of money he impersonated the dead man in order to secure funds later selling Armour's automobile for the same reason. Blancett still was on the stand when court adjourned late tonight. He will complete statement tomorrow.

## GAVE INTERESTING LECTURE

## ON "CONSTANTINOPLE."

"Constantinople" was the subject of an interesting lecture Friday evening by the Rev. J. F. Langton, rector of Trinity Episcopal church, at academy hall. The lecture was given as a free kindergarten benefit. As Mr. Langton has himself been a resident of the Turkish capital the talk had the charm of personal reminiscence and anecdote. Especially good was the description of the Mosque of St. Sophia given by Mr. Langton.

## EVERT CHILD BROKE ARM

## IN FALL FROM FILING.

Richard Evert, 3 years old, son of the Rev. and Mrs. A. F. Evert of White Hall is suffering with a broken arm, sustained Friday forenoon when he fell from a piece of large filing while at play in the yard of a neighbor. The child, accompanied by his father, came to the city Friday evening and underwent X-ray examination. Surgical treatment will be continued today.

There will be a Sunday school convention of Jacksonville precinct at First Baptist church Sunday afternoon at 2:30 o'clock. Well known workers will speak and a most interesting session is anticipated.

## FALLING LIMB BROKE DOWN

## WIRES ON EAST STATE

A large limb from a tree in front of the residence of George Moore, 645 East State street, bore to the earth telephone and electric light wires as well as the street railway trolley. A force of men from the light company were soon on the scene and in a few minutes the wreckage was cleared and the trouble remedied.

## PREPARE TO EXPAND

## ORGANIZATION

Washington, April 20.—Preparations to expand the Young Men's Christian association organization with the size of a war time army, were taken up at the war department today by John R. Mott, secretary of the association's international committee. Every part of the new armies, Mott said, will be as well supplied with reading and writing tents for the soldiers and other facilities of recreation and entertainment as are the present small forces.

## NAVY RECRUITING SHOWS GAIN

Washington, April 20.—Navy recruiting yesterday showed a net gain of 1322 men or an average daily gain for the week ending yesterday of 1,324. With this addition, the total combined strength was brought to 75,357. Secretary Daniels said there was no doubt that the full authorized number of 87,000 would be reached by May 1.

## RETURN FROM CONFERENCE.

Paris, April 20.—Premier Alexandre Ribot, and the British premier, Lloyd-George returned today from Savoy where they held a conference with the Italian premier, Paolo Boselli and the Italian foreign minister, Baron Sonnino, concerning co-operation between the entente allies.

## Rheumatism Should Be Nipped In The Bud

Rheumatism in its early stages may delude you into believing that it is a disease of a purely local and temporary nature. Beyond a slight numbness of the limbs and pains in the joints or back, there may be no outward indications of it, but if you do not heed these warnings, or if you rely upon liniments to cure you, it will grow rapidly worse until you have Rheumatism in its most violent form. These symptoms, mild in the beginning but growing steadily worse, indicate that your blood is impregnated with Uric Acid, which, if not eradicated, will contaminate your entire system. The results will be racking pains in the joints, muscles and limbs, chronic stomach troubles, and a sluggish liver. The only relief is in the restoration of the blood to its normal, vigorous condition, which can be accomplished by taking S. S. S., the unfailing remedy for rheumatic troubles. ## STRONG SERMON AT

## BROOKLYN M. E. CHURCH

"Be Sure Your Sin Will Find You Out," the Theme of the Rev. E. K. Towle Friday Evening.

"Be Sure Your Sin Will Find You Out" was the subject of a strong discourse by the Rev. E. K. Towle Friday evening at Brooklyn M. E. church. The revival meetings have during the past few days shown favorable progress and each night the evangelist has delivered messages full of spiritual power. Friday night he took his text from Numbers 32:23 and said in part:

"Escape from sin by flight or by covering them is absolutely impossible. Adam and Cain and Jacob tried that method and failed. David made a miserable failure of that same attempted escape. Nathan made David face his past and admit his guilt."

"Going away from home assuming another name, joining another church, lying to cover facts—all are the foolish devices of a coward, made so by transgression of God's law."

## SCHOOL ELECTION TODAY.

Remember the school election today. Polls open from 7 a. m. to 5 p. m. The polling places:

District No. 1—Jefferson school building.

District No. 2—David Prince building.

District No. 3—Voting place corner of Mauvaisterre and East College avenue.

District No. 4—Voting place corner Grove and Fayette streets.

## ELECTED MAYOR.

At the recent election in Chandlerville Ernest Spink, son of Mr. and Mrs. Ebenezer Spink of this city, was elected mayor by a majority of three votes. The contest was not political but it was close and exciting. Mr. Spink has opposition which kept him busy but he won out.

## ATTENDED LECTURE COURSE.

John H. O'Donnell has returned from St. Louis where he attended a course of lectures and demonstrations in embalming, given by Prof. Eckles of Philadelphia. The course was given at the plant of St. Louis Coffin company and was continued for three days.

## KNOLLS WILL SELL YOU THAT

## SPRING SUIT YOU MEAN TO BUY.

John W. McHenry, 1114 Hackett avenue, is recovering from a severe blow on the head, suffered Friday forenoon while doing his work as lineman for the Central Union Telephone Co. He was working near Lynville and was at the top of a pole when the loosening of a "slack block" dealt a blow which made McHenry unconscious for a time. The lineman was brought to Jacksonville by taxicab. Dr. W. H. Weirich, the attending physician, says that serious complications are unlikely.

## DAVID PRINCE PUPILS

## GIVE EXCELLENT PROGRAM

Cantata "The Gypsy Queen" and Play "Miles Standish" Presented Before Large Audience Friday Night.

David Prince auditorium was filled almost to capacity Friday night for the program given by pupils of the seventh and eighth grades and the evening's performance was acclaimed a success in every way. The proceeds will be used for the purchase of lantern slides. The pupils already have a lantern, purchased with money from "baled paper week" last fall, and the acquisition of suitable slides will make more interesting the study of geography, history and civics.

The program consisted of a cantata, "The Gypsy Queen" under the direction of Miss Lena Hopper, director of music in the schools, and a play, "The Courtship of Miles Standish," given under the supervision of Miss Anne Stevenson, teacher of English at the David Prince building. During the intermission a violin solo, "Short Gavotte-Dancla" was given by Harland Moses.

The characters for "Miles Standish":

Miles Standish, the captain of Plymouth—Herbert Weatherford.

John Alden, Standish's secretary—Andrew Russell.

Priscilla a Puritan Maiden—Frances Griswold.

Maid—Harold Hunter.

Messengers—Gerald Mann, Reginald Reid.

Magistrate, Indian, Pilgrims in Council, Wedding guests.

Scene I—Standish's House, spring of 1621.

Scene II—Priscilla's house.

Scene III—Same as scene I.

Scene IV—Room in Puritan House, The Council.

Scene V—Out of doors. The next day.

Scene VI—Same as scene II.

About two years later.

Scene VII—Room in Puritan House. A few months later.

Properties committee—Dorothy Hairgrove, Vernon Scofield, Clifford Sibert, Vivian Pires.

The dramatization of the poem by Longfellow was the outgrowth of the pupils' regular work in English and was done by them as they made a study of the story. The play was given in costume and the colonial effect was enhanced by the use of several relics of olden times, lent especially for the occasion.

## "The Gypsy Queen"

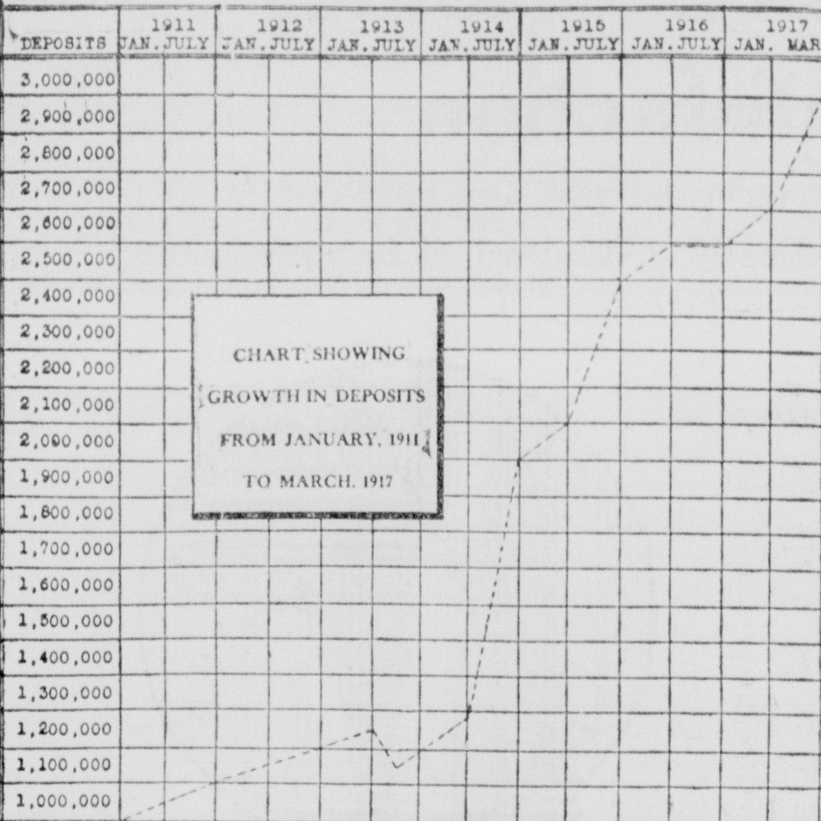

The cantata, "The Gypsy Queen," was given by ninety voices and the melody of the children's singing showed that the work of training and preparation had been especially well done. Many of the passages had a light and airy quality, especially well suited to the voices of the young people.

The story of the cantata:

Many years ago a beautiful Gypsy Maiden became the bride of a Prince and reigned with him over her native country. Every year after their marriage the youths and maidens of the tribe made it their custom to meet in the sylvan glade adjoining the palace, to pay special honor to their beloved Queen and Prince.

## DRILL WORK WILL BEGIN AT HIGH SCHOOL

Training Will Be of Voluntary Kind—Purpose is to Make Young People More Physically Fit for Army Duties That May Come

In accordance with the expressed wish of a number of pupils of the Jacksonville high school drills will soon be inaugurated at the school. There will be drills at 3:45 p. m. Tuesday and Thursday of each week and the work will be entirely on a voluntary basis. The action was taken after a petition had been circulated by the boys, a large number signing it. By this petition the young people pledged themselves to devote 45 minutes twice a week to this work. Principal Callahan read the petition before the assembled pupils and Supt. Perrin made a brief talk.

The superintendent said that it is uncertain what the future holds for the young people of the land but that if the demand for military service should come, that physical training now would be of great advantage. He pointed out that if services are required that it will be along many lines and there will be many duties, not only on the battle front but on the farms and in the shops and in other industries.

So it behooves boys and young men to keep themselves in the most fit condition possible, and the superintendent made it certain that he approved of the proposed drill plans. He outlined also some of the duties which young women might be called upon to perform and explained that physical training would also be desirable for them in preparing for any duties of patriotic service. Instruction for the girls will be provided if it develops that a considerable number of them wish to enter into the plan. Enough boys have already signified their wish for the drill service to carry with it the announcement that the work will begin the coming week.

About the only requirement made by Supt. Perrin and Principal Callahan is that the boys and girls who begin this training work shall keep at it faithfully for at least a period of weeks. If the drill proves permanently beneficial it will be necessary to work conscientiously and no "slackers" were wanted.

**CITY TEACHERS TO HAVE INSTITUTE TODAY**  
Opportunity Will Be Given for Presentation of Special Ideas as Study Helps

This morning at 9 o'clock the monthly city teachers' institute will be held at David Prince school. Supt. Perrin will present various matters pertaining to general school work and the topics and outlines of the course of study for the grade departments will be distributed. Through this course of study teachers are enabled to know just what work is being attempted in all of the grades and the chief points of emphasis in all of the grades are indicated.

The superintendent in co-operation with principals, supervisors and teachers, worked out this course of study, which is a modification and adaptation of the state course of study to the text books used here and local conditions. "School ideas" will be presented today along many lines and there will be some exhibits to exemplify work attempted. Two exhibits will be on view between 10 and 12 o'clock today in rooms off the west hall of the David Prince building and the public is invited. Some special ideas will be presented along the following lines:

Music work, physical training, play ground supervised games, use of sand tables in modeling as represented by a Kaffir Village of South Africa and by a physical model of North America, both of which were made by school children, art, construction, Manual Training, some phases of general school work, school room coasters, relief maps and models, science projects, sewing, cooking, picture and illustrative maps and collections.

The Journal has received a brief communication signed "A Soldier's Daughter," in which the writer takes exception to certain statements made in a recent communication "Regarding the Monument" which appeared in the Journal. As the writer of the article referred to is heavily in favor of erecting a monument in the park in accordance with the wishes of the old soldiers, "A Soldier's Daughter" has evidently misunderstood some of the references in the article.

## WELL KNOWN SALVATION ARMY LEADER COMING

Mrs. Estill Will Speak at Central Christian Church May 6th—Prominent in Religious Work in Many Countries.

Announcement has been made that Mrs. Commissioner Estill of the Salvation Army will make a visit to Jacksonville soon and Sunday morning, May 6th will be heard at Central Christian church. Mrs. Estill is the wife of Thomas Estill, commissioner for the western states in the Salvation Army organization. Mrs. Estill is a remarkable woman and has done self-sacrificing and marvellously successful work in organizing for the uplift of women and children in various countries where she has been. Thru her efforts thousands of women have been restored to lives of virtue and industry and many children have found places in Christian homes. This great Salvation Army worker has labored in Australia, South Africa, New Zealand, Holland and Japan, in addition to this country, and the success crowning her efforts has been indeed remarkable.

It is said that Mrs. Estill has few equals among the women of this country as a platform speaker, for she has in addition to her natural attractiveness, the deep fervor coming from an intense interest in the work in which she is engaged. Mrs. Estill is the mother of Lieut. Estill who has been engaged in Salvation Army work here for several months past. Announcement will be made later as to the exact date of the coming of Mrs. Estill and her address will be looked forward to with a great deal of interest.

W. W. Hillis of Peoria was a traveler to the city yesterday.

## INTENSIVE FARMING PLANNED BY STATE

Farmers and Gardeners From State Institutions Attended Conference.

Acting in accordance with instructions sent by President P. J. Kern of the state board of administration, farmers and gardeners from the state institutions attended a conference with the board in Springfield Thursday. The purpose of the conference was to get an accurate line on the farm and garden acreage at all the twenty-one institutions planned the past year and the acreage planned for 1917. It was shown by the reports presented that 7,000 acres are available and by intensive methods proposed it is expected that production will be greatly increased. This work is essential not only in order to make a contribution to the sum total of agricultural and garden products, but also to help along with institution expenses. Costs of operating the institutions have increased at a terrific rate during the past few months and the cost for foodstuffs, fuel, clothing, etc., in 1917 are likely to go far beyond the appropriations.

Emil Peterson and Fred Thies of the Jacksonville state hospital, and Frank Mather of the State School for the Deaf were among those present. Mention was made at the conference of the deep interest Governor Lowden is manifesting in the increased state crop plan as shown by his offer to place his farm of 4,700 acres in Ogle county at the disposal of the government.

Next Sunday's Chicago Herald will contain a beautiful reproduction photograph in color, size 8x11 inches, of Alice Joyce, star of the new film play "Woman—The Glory of a Nation," which is the latest release of the Greater Vitaphone Company. The photograph shows Miss Joyce draped in an American flag with another "Old Glory" for a background. The size and makeup of this picture makes it especially desirable for framing. Order your copy of the Sunday's Chicago Herald from your newsdealer today—right now.

## FLAG RAISING AT C. P. & ST. L. SHOPS A GRAND EVENT

HUNDREDS WITNESS CEREMONIES DESPITE OF WEATHER

Much Patriotism Shown By Those Present Thruout Program—H. H. Bancroft In Principal Address of Day—"The Spirit of '76" Draws Great Applause.

Martial music and speeches that rang with patriotism marked the flag raising ceremonies at the C. P. & St. L. shops Friday afternoon. It was truly an inspiring occasion and one witnessing it was deeply impressed with the feeling that loyalty and love of country burns as strongly in the hearts of citizens today as in the days of the Revolution and the war of the rebellion.

Despite disagreeable weather several hundred citizens gathered for the ceremonies and the closest attention was given the various speakers. The audience was an enthusiastic one and cheered the speakers, the music, the old soldiers and gave Old Glory an ovation as she floated to the breeze from the flag staff on the roof of the machine shops.

The program was carried out as given in the Journal with the exception that Major Blinford Wilson, president of the C. P. & St. L. was kept at home by illness. Mr. Wilson sent a telegram to the employees which was read by W. C. Hurst, general manager of the road.

"The Spirit of '76."

Perhaps nothing on the program aside from the ovation to the flag brought forth as much enthusiasm as the number which was referred to as the surprise number. This was the reproduction of the famous painting, "The Spirit of Seventy-Six." At the close of the address by H. H. Bancroft a signal was given and three men emerged from the office of the shops north of the machine shops. The three were John Devlin with life, Prof. J. H. Rayhill with snare drum and Robert Lorton with bass drum. They marched down the track with bandaged heads and as they neared the crowd the applause broke forth which became pandemonium as the trio passed thru and around and up the platform where two more selections were given.

Other musical selections were furnished by a band composed of students from Illinois college and the high school, a quartet composed of Harry Obermeyer, Percy Cherry, James Guyette and Maurice Peckham and twenty-two little girls who carried the flag. At the close of the program Capt. John E. Wright led the singing of "Rally Round the Flag." It was largely thru the efforts of Mrs. Andrew Russell that the band was secured.

The meeting was called to order by Charles Cobb, chairman of the committee on arrangements. Mr. Cobb extended words of welcome in behalf of the employees and introduced George W. Imgrund, superintendent of the shops as chairman of the afternoon.

Mr. Imgrund then called upon Dr. A. B. Morey who offered a fervent prayer. Mr. Imgrund then made a few remarks. He said, "I wish to again welcome you in behalf of the employees and to thank you for your show of patriotism in coming out to these ceremonies. This flag was purchased by the employees by voluntary subscription. You may witness many flag raisings in the future but you will never witness one in which more real patriotism is shown than on this occasion. Some of us may be called upon to defend it. If we are we will not be found wanting." After a selection by the band, the chairman introduced Mayor Henry J. Rodgers.

Mayor Rodgers said in part: "This occasion calls to my mind and probably to the minds of other of the older people a great many occasions where we have rallied around the flag. We always rallied around the flag in campaigns. But in recent years patriotism seemed to have become dormant. In the early days of the republic the men talked about a flag but it remained for a woman to make it. This is the first concerted effort in Jacksonville at flag raising and it seems to be most successful. As mayor of the city I extend you a hearty welcome in behalf of the employees of the shops and of the people. It may be that many of the young men will be called upon to go to war. But those of us who remain at home also have a duty to perform and we must do our full share."

The quartet then sang, "Tenting On the Old Camp Ground," which was received with enthusiasm by the crowd. Following the song twenty-two little girls, most of them children of the employees of the shops came from the machine shops carrying the flag. They marched around the platform where they sang a song to the flag.

The Flag That Never Comes Down. The chairman then introduced the Hon. Andrew Russell, who presented the flag to George Paul Commander of Matt Starr Post, G. A. R. In presenting the flag Mr. Russell said, that wherever the flag had been put up it had never come down. He then presented it to Mr. Paul who with the members of the post placed it on the rope and it was run up to the flag pole. As the flag went up the band played the national anthem and the crowd cheered wildly.

Mr. Imgrund then introduced Hon. Horace H. Bancroft who delivered the principal address of the day. Mr. Bancroft, always a splendid orator, had a subject and an audience that inspired him and he never appeared to better advantage. A few of his thoughts are given: "My first words here this afternoon will be to ask every man, woman and child to join with me in a hand clapping to the flag." The request was complied with heartily by the audience.

"This occasion," said Mr. Bancroft, "is caused by an awakened patriotism. It shows that the employees of the C. P. & St. L. are loyal to their country and flag.

## HIGH SCHOOL STUDENTS WILL GIVE PLAY

Cast Chosen for "A Scrap of Paper" to be Presented May 11th Under Direction of Miss Elson Barnes

Following the suggestions at the last meeting of the board of education, the stage in the gymnasium in the David Prince building is being fitted with hard wood floor, an entrance on the west side to dressing rooms, steel conduit lights, a new curtain, two sets of interior scenery, and other improvements. All bleachers except the back row are to be removed, six hundred folding chairs secured and thus the total seating capacity will be about a thousand.

May 11th the pupils of the high school are planning to present the play of the year, "A Scrap of Paper" and elaborate preparations are being made for the event. Miss Elson Barnes, who has had such good success in this line, will coach the play. Briefly the story of the play is as follows:

Various persons try to get possession of a scrap of paper. The scrap of paper is a letter which Louise has written to Prosper before her marriage to the Baron and which he had never received. She is very anxious that it should never fall into the hands of her husband. Suzanne, in order to save Louise and with pure revenge, makes a wager with Prosper that she will find the scrap of paper with her own hands. The play deals with her trying to find his "Scrap of Paper."

The play is full of humor and fun and situations, finally ending with Suzanne's finding of the "Scrap of Paper."

## MICHIGAN LEGISLATURE IN MEMORABLE SESSION

Paved Way for State Budget System—Prohibition Advocates Put Thru Program Without Difficulty—Railroads' Appeal for Increase in Fares Not Granted

Lansing, Mich., April 20.—Having paved the way for a state budget system, placed upon the statute books the machinery to enforce the prohibition laws when the state goes dry next year, and having authorized a war loan of \$5,000,000, the legislature formally adjourned today.

While the number of bills passed by the two houses will not exceed the usual amount, it is generally conceded that the 1917 legislature will be recognized as one of the most memorable law making bodies in the history of the state.

Unusual conditions produced unusual legislation. The entrance of the United States into the war necessitated the passage of the big war loan and Governor Sleeper was authorized to draw upon the credit of the state for home defense and to equip state troops for federal service.

**Military Board Scope Widened**  
The scope of the state military board has been extended so as to provide a constabulary for home defense while the Michigan troops are in federal service. The state will care for dependents of men who enter the state military service and a War Preparedness Board has been created to deal with military and economic problems.

While the 1917 legislature did not establish a budget system, the Governor was authorized to name a commission to investigate the budget systems of other states and prepare a bill for a special session which will be held late next fall or early in 1918.

The legislature did not heed the appeal of the railroads for an increase in passenger fares, but authorized the governor to name a commission to investigate this question. If the report of the committee is favorable it is believed the next legislature will authorize an increase in rates.

Prohibition advocates, in absolute control of both houses, experienced little difficulty in putting thru their program. When state wide prohibition goes into effect May 1, 1918, the machinery will be ready to make Michigan "bone dry."

Many important changes were made in highway laws and unless there is a general suspension of road building on account of the war, State Highway Commissioner Rogers is of the opinion that Michigan will be one of the leaders in highway construction.

Considering the needs of the wards of the state the legislature took into consideration the increased cost of running the state institutions and appropriations were advanced accordingly. The Industrial School for Boys will have a new home as the result of a law authorizing the board of control to sell the present site in Lansing and purchase a farm of 1,000 acres several miles from the Capital City. The new institution will be one of the most complete in the country.

Owing to the increased cost of supplies the appropriations this year will be larger than ever before. Until all the bills that passed in the closing hours are checked over, it will be impossible to give the total.

## A STORY OF LONG SUFFERING

Indiana Lady's Deliverance Effected At The Eleventh Hour.

Alfordsville, Ind.—In a letter from this place, Mrs. Vada Street says: "For over eight years, I suffered from almost every ailment known to my sex."

I would have such severe pains in my back, every month, that I would be in bed two or three days.

At such times I would be so nervous that I could hardly stand to have anyone walk across the floor.

I tried a lot of different medicines, but nothing I ever tried did me so much good as Cardui, the woman's tonic.

I have taken three bottles of Cardui, and the last three months I haven't suffered any pain at all, and I do not have those awful nervous spells.

Had I only known of this wonderful medicine eight years ago, I could have saved many dollars, and days of pain and sorrow.

I advise every woman who has the least symptom of womanly trouble, to take Cardui.

Lady Reader, have you any of these symptoms? If so, we urge you, as Mrs. Street does, to give Cardui, the woman's tonic, a trial.

It is composed of purely vegetable ingredients—and can do you no harm. It is almost sure to do you good.

Your dealer sells Card-u-i. Try it today.

## HOPES WAR WILL LEAD TO FEDERATION OF WORLD

Associate Editor of "New Republic" Makes Address on America's Relation to World Conflict—Defeat of German Government is Object of War

Philadelphia, Pa., April 20.—The "grand alliance" between the United States and the democracies of Europe against autocratic aggression as practiced by Germany gives rise to the hope that the war will lead to a Federation of the World, in the opinion of Walter Lippmann, of New York, Associate Editor of the "New Republic," expressed today in an address on "America's Relations to the World Conflict," before the American Academy of Political and Social Science.

"I know it sounds a little old-fashioned to use that phrase, the Federation of the World," said Mr. Lippmann, "because we have used it in empty rhetoric. But no other idea is big enough to describe the alliance. It is no longer an offensive-defensive military agreement among diplomats. It is growing into a union of peoples determined to end forever that intriguing, adventurous nationalism which has torn the world for three centuries."

**Russian Revolution Changes All**  
"The war is dissolving into a stupendous revolution a few months ago we still argued about the Baghdad corridor, strategic frontiers, colonies. These were the stakes of the diplomats' war. The whole perspective is changed today by the revolution in Russia and the intervention of America. The scale of values is transformed, for the democracies are unloosed."

"We are at war to defeat the German government, to destroy its prestige, to deny its conquests, and to throw it back at last into the arms of the German people, marked and discredited as the author of their miseries. It is for them to make the final settlement with it."

"We can win nothing from this war unless it culminates in a union of liberal peoples pledged to co-operate in the settlement of all outstanding questions, sworn to turn against the aggressor, determined to erect a larger and more modern system of international law upon a federation of the world. That is what we are fighting for at this moment, on the ocean, in the shipyard, and in the factory; later, perhaps in France and Belgium, and ultimately at the council of peace."

## STATE DISMISSES CASE AGAINST RYAN

GALVESTON, Texas, April 20.—The case of George Ryan, accused of murder in connection with the death of William Black, an anti-Catholic lecturer was dismissed on motion of the state. The defense gave notice of appeal from the ruling of the court.

Black was killed in Marshall in February, 1915. Cases against John Copeland, George Ryan and George Tier, which resulted from this affair were transferred to Galveston.

Copeland was acquitted by a jury during the last October term of court. Today the Ryan case came up after having been continued several times.

The defendant, protesting his innocence, insisted upon being given a trial and counsel therefore appealed from the court's decision.

## OUTLINES CODE TO MAKE PEACE SELF-ENFORCING

Speaker Before American Academy of Political and Social Science Presents Arguments in Favor of Peace Without Force

Philadelphia April 20.—A "supernational code" of principles to make peace self-enforcing was outlined by Dr. S. N. Patten of the University of Pennsylvania in an address before American Academy of Political and Social Science here today, as a substitute for any attempt to impose peace by force.

Dr. Patten was discussing "America's relation to the world conflict," and presenting arguments in favor of peace without force. Defining the code of principles he proposed, he said:

All decisions should be made by popular vote. The western world claims to be democratic and yet in no nation is democracy trusted. Should declarations of war be delayed until ratified by popular vote, they would not occur.

"Home rule must accompany popular suffrage to prevent national majorities from oppressing minorities. The antagonisms of race, culture, religion and language could thus be avoided."

## Freedom of the Seas.

"Freedom of the seas. The ocean is a common heritage that should be in the control of no nation or group. If England extends her blockade of Germany 100 miles from the German coast, Germany should be allowed an equal area about England to establish her submarine blockade, and we should claim the same zone for our coast defense. But other parts of the oceans should be open to all on equal terms."

"No nation should be allowed to exact export taxes on raw material. The natural advantages are equally distributed that virtual slavery can be maintained if so, world necessity were controlled by one nation or if a group of nations should conspire to control world commerce."

"A fair distribution of tropical areas among commercial nations. All nations need a tropical region to complement their home trade. There is ten times the quantity of tropical land to meet this condition. Cuba could supply the sugar of the world and either Java or Brazil its coffee or spices. Nations now monopolizing they will never use. When land hunger ceases a potent cause of war will be removed."

To these principles Dr. Patten added fair dealing toward all peoples, the righting of wrongs before the enforcement of claims, even the claim be just, and the practice of tolerance and recognition of liberty in world decisions.

"The world needs not a dictator but some nation that lives up to the super standard and thus shows the possibility of a peaceful progress," declared Dr. Patten. "Should America become such a people, avoiding the degradation that suspicion and hatred engender we would have a host of imitators."

"The League to Enforce Peace seems an organization to promote harmony and doubtless this is the earnest wish of the promoters. But the average citizen thinks of the difficulty it would create. If we are to have an enforced peace America must enforce it. Who can tell what millions of men and billions of money will be needed to impress our standards on the world?"

**RETURNS FIRE OF  
MEXICAN SNIPERS**  
El Paso, Texas, April 20.—Snip-  
ers who fired at an American sentry  
stationed at the viaduct in the sub-  
urbs of this city were fired upon in  
return by a squad of United States  
soldiers late today. One Mexican  
was seen to fall after a volley had  
been fired across the border.  
When Mexican Consul Bravo re-  
ported the affair to Brigadier Gen-  
eral George Bell, Jr., General Bell  
informed him that the American sen-  
try had been fired upon and had  
obeyed orders in returning the fire.  
"I have ordered the outposts to  
shoot to kill when fired upon," Gen-  
eral Bell said later. "I will court  
martial a man who fires across the  
border first and I will also court  
martial one who fails to return the  
fire when he is fired upon."

**SERIOUS RIOTING IN BRAZIL**  
Rio Janeiro, April 20.—Serious  
rioting occurred today in Porto Ale-  
gre where manifestations against  
the German colony have been in pro-  
gress several days. As a street car  
crowded with passengers passed a  
German hotel several shots were fired  
from the building. A number of  
persons were wounded and there was  
a renewed outbreak of violence di-  
rected against the Germans. Several  
Germans were arrested.

**SINN FEINN CONVENTION MEETS**  
Dublin, April 20.—The Sinn Fein  
convention met today at the mansion  
house with Count Plunkett presid-  
ing.  
The attendance was large includ-  
ing, unexpectedly, numerous priests,  
but no prominent Irish public men  
took part in the proceedings. The  
convention proclaimed Ireland a sepa-  
rate nation and demanded representa-  
tion at the peace conference.

**TOLEDO PITCHER SOLD**  
Toledo, O., April 20.—The sale of  
pitcher Carl Adams to the Sioux  
City club of the Western League was  
announced today by Roger Bresna-  
han, manager of the Toledo Ameri-  
can association team. Adams was  
released to Memphis early in the  
spring but was turned back. The  
sale price was not announced.

# THE VITAL DIFFERENCE

Is That Between the Cost of  
**GASOLINE and KEROSENE**

We Want You to Investigate the Merit s of the Titan 10-20 I. H. Co. Tractor

What makes the difference in tractors—  
the difference that makes you decide for  
or against certain makes? You guard against  
impractical design, defective workmanship  
and materials—you prove by demonstra-  
tion the machine's capacity for work. But  
the vital difference is a hidden one. It can  
only be brought out in actual service. It is  
the kind of fuel the tractor operates on day  
after day and what it costs you. Gasoline  
was once a cheap source of power for the  
farm. There was little demand for it, and  
its price was low. Now it is more in demand  
than any other oil fuel, and its price is pro-  
hibitive for farm power. Kerosene is cheap  
because it is produced in larger quantities  
than gasoline, and the demand for it is  
comparatively small. Kerosene, then, is  
the economical fuel for the tractor.  
Not every tractor will do good work on  
kerosene, however. That is why manufac-  
turers tell you that there is no saving in  
using kerosene—that it is dirty and ineffi-  
cient.  
Don't take any salesman's word that this  
tractor will operate on kerosene. Make him  
put it in writing in the order which you  
sign. If he is unwilling to do this, look out!  
There is only one way to be sure that you  
are getting a successful kerosene tractor  
and that is, to get a written guarantee, for  
such an agreement binds the manufacturer  
by law to make good.

**WAR CONDITIONS**  
**INFLUENCE BUSINESS**

Overtime Work is Enforced to Ac-  
celerate Production and Distribu-  
tion of Supplies Intended for Mil-  
itary Uses.

New York, April 20.—Dun's review to-  
morrow will say:

"A widening field of business is in-  
fluenced by war conditions, an ordin-  
ary requirements in many instances are sub-  
ordinated to the pressing necessities of  
the government. Industries and trades  
which had experienced a lull from the  
previous unproductive activity now re-  
spond to extensive federal buying, and  
overtime work is enforced to accelerate  
the production and distribution of va-  
rious supplies intended for military use.

From many quarters complaints of  
scarcity of raw materials and labor be-  
come more insistent and outputs are  
maintained with increasing difficulty,  
while the transportation problem still  
occasionally concerns in not a few direc-  
tions.

"Requests for hasty shipments on regu-  
lar contracts suggest apprehension of  
deranged delivery to follow and urgent  
demands of making prices are in some  
cases impelled by fears that future needs  
may not be satisfied. Yet in some branches  
as in about all sections there is mani-  
fest a disposition to proceed cautiously  
in making new commitments, and ef-  
forts to promote widespread economy  
among consumers are beginning to be  
reflected in more careful purchasing  
in retail circles.
